

To whom it may concern,

On September 29, 2025, Progressive Initiatives, a Dallas/Fort Worth non-profit dedicated to positively impacting Dallas/Fort Worth's Youth, is hosting its annual charity golf tournament at Oakmont County Club, 1901 Oakmont Dr, Denton, TX 76210. Proceeds are used to fund youth leadership programs provided by Progressive Initiatives. We ask for your consideration in making this event an immediate success by becoming a sponsor.

Progressive Initiatives, a 501(c)(3) non-profit organization, began in 2010 by Phi Beta Sigma Fraternity, Inc., Omicron Sigma Chapter members. The organization administers youth mentoring programs to nurture creativity, promote academic achievement, and reinforce social and civic responsibility. Thanks to the help of donors and sponsors alike, the organization has funded over \$100,000 in scholarships since its inception. These scholarships have helped fund college degrees for students at universities nationwide.

As with all organizations, there are presumed costs in sustaining the highest quality of impact for long-term success. Our youth members benefit from leadership and monetary responsibility programs, which all require educational materials. These education materials act as tools for long-term success, and sponsorship helps facilitate the creation of these tools for all of our students.

Your company's sponsorship or charitable donation will directly benefit the youth of Dallas/Fort Worth. Still, they will also provide an excellent opportunity to network with key decision-makers of other Dallas/Fort Worth businesses. Please see the attached documents for more information on what is included in the available sponsorship packages.

We welcome and appreciate your support. Progressive Initiatives Foundation 501(c)(3) [www.progressive-initiatives.org](http://www.progressive-initiatives.org) is the charitable partner of the Omicron Sigma Chapter of

Phi Beta Sigma Fraternity, Inc.

Warmest Regards,

*Howard Redmond*
